SUMMARY

Results-driven Senior Frontend Developer with **4+ years of expertise** in developing **scalable web applications** using **React.js, Redux, SCSS, Tailwind CSS, Material UI**, and **GitHub Copilot**. Proven success in **modernizing legacy systems**, enhancing **UI/UX performance**, and driving **faster development cycles**. Adept at integrating **REST/SOAP APIs** and collaborating in **Agile teams** to deliver **high-impact solutions**.

EXPERIENCE

Senior Software Engineer
LTIMindtree   October 2024 - Present, Pune, MH

- **Built reusable React components** integrated with **Sitecore CMS**, reducing development effort and improving content scalability while ensuring **cross-platform responsiveness** for desktop, mobile, and tablet.
- **Integrated multiple APIs** for **user forms**, enabling **backend case creation** and **Salesforce query tracking**, reducing manual effort.
- **Developed booking flows** with **Redux store** to maintain data across the lifecycle, enhancing **reliability** of bookings and improving the **user journey**.
- **Built responsive booking and login pages, forms, and UI components** using **React** and **SCSS**, ensuring consistent and **user-friendly interfaces**.
- **Experience in Agile, cross-skilled Scrum-based environments**, demonstrating **adaptability** and **collaboration** within multifunctional teams.

Senior Developer
Cognizant   July 2021 - October 2024, Pune, MH

- **Migrated multiple legacy Siebel UIs** to **React.js** using **Micro Frontend Architecture**, adhering to **Agile methodologies** and **SDLC practices**.
- Possess an **extensive background** in developing **interfaces, webpages, and applications** utilizing **Siebel** and **React.js**, showcasing a **versatile skill set** across diverse technologies.
- **Developed a responsive website** with **React.js** and **Tailwind CSS** that allowed clients to directly modify customer details via a **Python REST API**, significantly **reducing support tickets**.
- **Collaborated on a team** to build a **360-degree dashboard** consolidating **order and customer data** into a **single-page application**, enhancing **order tracking**, **transaction management**, and **customer insights**.
- **Implemented a new feature** in collaboration with the team, achieving a **90% reduction in support tickets** by deploying a **real-time operational solution**.

PROJECT

JCOM
LTIMindtree · November 2024 - Present

- Developed complex Sitecore components using React.js, Redux, HTML, SCSS, and JavaScript to deliver scalable and maintainable solutions.
- Converted Figma designs into reusable React components, ensuring pixel-perfect UI implementation and faster development cycles.
- Utilized GitHub Copilot for development, testing, and code comprehension, accelerating delivery timelines and improving productivity.
- Migrating legacy React and JavaScript code to Next.js with TypeScript, enhancing code maintainability, performance, and scalability.

360 Dashboard
Cognizant · August 2021 - October 2024

- Developed an interactive dashboard using React and Chart.js, enhancing data visualisation and consolidating multiple systems into a single view.
- Transformed JSON data into dynamic UI tables with implemented sorting and filtering functionalities for enhanced user interactivity.
- Technologies utilised included React 18, React Router, and Tailwind CSS leading to a 30% reduction in development time, with a highly responsive desktop design.
- Integrated robust authentication and session management features, strengthening security protocols and streamlining user access within the 360 Dashboard application.

EDUCATION

Bachelor of Technology in Computer Science (BTech in CS)
Lakshmi Narain College of Technology Excellence · Bhopal(MP), India · 2021

CERTIFICATIONS

Github Copilot
Microsoft · 2025

SKILLS

Libraries: ReactJs, Redux, RTK, SCSS, Tailwind CSS, React Router, Jest, Material UI

Languages: JavaScript, Typescript, HTML, CSS, SQL / PLSQL

Tools: Git, GitHub Copilot, Azure, Postman, VS Code, Jira, Oracle SQL Developer

Soft Skills: Excellent communication, Troubleshooting, Problem-Solving, Team Management, Decision-Making
